

Origami Cicada

1. Start with a square sheet of paper with the colored side facing down.
2. Fold in half so it looks like a mountain.
3. Fold up the two bottom corners so the corners meet at the peak of the mountain.
4. Fold the two corners back down, except fold them at a bit of an angle so the corners are slightly away from one another like the wings of a bug.
5. Fold down the top layer of paper only.
6. Fold down the bottom layer of paper but make it less wide so you see some of the white from the previous step.
7. Fold back the left & right sides of the model to form the body of the cicada.
8. Origami cicada is done!

Origami Butterfly

<https://bit.ly/4ljenfG>

1. Fold the paper diagonally in half to make a triangle.
2. Fold in half again to make a smaller triangle.
3. Open up the fold you just made.
4. Put the triangle on the table with the central fold pointing up like a tent.
5. Fold one corner up as shown in picture 5.
6. Open the fold.
7. Fold the other corner as shown in picture 7.
8. Open the last fold. Now you have a butterfly!
